

# Ocarina Club

Thursday lunchtime: 12.00-12.30pm  
In Class 1: Mrs Robertson

We asked Mrs Robertson all about the Ocarina club.....

## First of all, what is an Ocarina?

It's a musical instrument—a bit like a recorder but looks like a turtle.

It is oval-shaped and has four finger holes on the top and a mouth tube which you blow into.

## And what do you do in the Ocarina Club?

We have a go, have fun and make lots of noise!

We learn how to get a tune out of an Ocarina.

We like to try new tunes and hope to perform for the school at the end!

**And what do you aim to teach the children?**

How to play a simple instrument—the Ocarina.

By the end of the first lesson they can have a good go at a simple well known tune.

As we progress we learn more complex tunes and 'rounds'.

They are also taught the basics of reading music and understanding tune and beat.

**And what do the children think about their Ocarina Club?**

*'It's well good because you learn to play songs'. Jacob*

*"I like learning all about the music and how to play the instrument'. Jayde*
